

## BICYCLE/PEDESTRIAN ADVISORY COMMITTEE MINUTES

---

7:00 p.m., Wednesday August 16, 2006  
Hillview Community Center-Room 2  
97 Hillview Avenue, Los Altos, California 94022

---

### CALL TO ORDER

**Roll Call:** Curt Riffle (Chairperson), Scott Chan, Bill Crook, Carl Hagenmaier, Chris Hlavka (absent), Henry Pastorelli, and Randy Rhody

### Public Comments:

None

### Discussion:

1. Approval of July 19, 2006 BPAC meeting minutes (Curt) (Decide)  
The minutes were approved unanimously.
2. Stevens Creek Trail Feasibility Study (Randy, Henry & City of Sunnyvale) (Discuss)  
Sub-committee will meet on the 8/24 to create the task force.

VTA & city are working on an agreement covering \$43K. Timeline: execute agreement September, followed by RFP, followed by selection and award. Larry estimates consultant on board by end of year.

Cathy Merrill, asst. to Sunnyvale director of parks & recreation, reported that the Sunnyvale council has said they will not be developing a bike trail on the SC “corredor”, that is, in the creek bed. They did make a commitment for connection to the trail via street alignment. They have no concrete plans.

We asked her if Sunnyvale would like to participate financially in the feasibility study or in the task force. She said she would take the question back.

3. VTA BPAC update (Carl) (Inform)  
Carl did not attend this month’s meeting.  
Larry brought in a “Barriers and Crossings” questionnaire/form from Michelle DiRobertis. We added this to the agenda for the next meeting. Subcommittee of Carl will generate draft response.
4. Traffic Commission update (Bill) (Inform)  
No report.
5. Adobe Creek Bridge replacement project (Larry) (Inform)

Larry reported that the design concept will be “in” this Friday. Tentative meeting with PA bike committee on 9/5 7:30 at PA Arts Center on Newell Rd. To view the concept, call Terry Greiner at x 2623.

Curt will arrange our 35% review for next week. The concept will be reviewed by Scott, Randy, Carl.

6. Bike racks discussion (Scott) (Inform)

Moved, seconded and approved that Scott’s recommendation be forwarded to traffic commission. See Attachment I.

NOTES/DISCUSSION ITEMS:

1) Total number of suggested racks for downtown is 18.

2) I (Chris) could not find good locations behind restaurants. Perhaps others can name some.

3) Locations next to intersections, for example the two racks on the bulbout in front of Starbucks's, have the potential advantages of limiting travel along Main and State and State Streets, and being highly visible.
