### Los Altos Community Center

#### <u>OWNER</u>

**City of Los Altos** Chris Jordan Donna Legge Manuel Hernandez Peter Maslo James Sandoval

#### <u>ARCHITECT</u>

Noll & Tam Architects, Inc. Janet Tam James Gwise Dora Pollak Gavin Ross Trina Goodwin

#### GENERAL CONTRACTOR

Gonsalves & Stronck Construction, Inc. Keith Gonsalves Ken Gendotti Lance Zurfluh Craig Muhlenhaupt Kyle Walker Melanie Rivera

#### CONSTRUCTION MANAGER

Nova Partners, Inc. David Marks Joe Capps-Jenner Saul Flores Sam Tooley The Los Altos Community Center will support play, learning and community gatherings and will be configured to maximize connections to existing amenities on the Civic Center campus and downtown.

The building will contain modern amenities, be sustainably designed and provide facilities that are both adequate and useful to the community. The architecture will be inviting and showcase the unique character of the City of Los Altos, with the building located in a beautiful park-like setting.

### **Project Summary**

The Hillview Community Center located at 97 Hillview Avenue, Los Altos was constructed in the 1940s and 1950s as an elementary school and has served as a community center since 1975. The buildings were originally constructed as wood-frame and steel structures and had undergone numerous additions, renovations, and upgrades over more than 70 years. The scope of this project is to demolish the existing 30,362 square-foot community center, re-designing the site, retaining 71 existing trees, and constructing a new one-story 24,500 square-foot community center building occupying a location at the north end of the present community center site. Pedestrian pathways and crosswalks will be provided throughout the site to connect the parking lots and existing sidewalks to the new buildings, recreational facilities, and existing buildings surrounding the site such as the History Museum and Library. The driveway connections to Hillview Avenue will be realigned, with a total of two driveway connections rather than the existing four driveway entrances. The site will function more efficiently and provide a better connection to the existing buildings within the Civic Center.

The construction phase of the project began with bidding and subsequent City Council approval of the construction contract in July 2019. The project budget approved by City Council for the entire project is \$38,335,400 which includes all soft costs, hard costs and furniture for the new building.

The construction work is being performed by Gonsalves & Stronck Construction Company, Inc. Demolition of the site began in September 2019 and the buildings were demolished in October 2019. Through November 2020, installation of mechanical and electrical systems continues. On the exterior, the building is beginning to take shape. Substantial progress was made on the roof and the building exterior. Drywall and other interior finished continue to be installed.

In accordance with the shelter-in-place order issued by Santa Clara County, on March 31, 2020, in response to COVID-19, work on-site was suspended until the revised County order on April 29, 2020. Work resumed, with new health and safety requirements, on May 4, 2020. Following a confirmed cased of COVID-19, the site was voluntarily closed for sanitization on September 11, 2020 and reopened September 15, 2020 in accordance with the contractor's protocols.

The original November 25, 2020 substantial completion date reflected in the bid will be extended. Substantial completion is currently anticipated in April, 2021. The completion date may continue to be adjusted as impacts from COVID-19 are realized. For more details on the budget and schedule, see pages 9 & 10 and Appendices A & B enclosed.

### **Activities Summary**

#### November 2020 Activities:

Construction activities performed by Gonsalves & Stronck Construction in October 2020 include:

- Continued implementation of COVID-19 health and safety plan protocols in accordance with Santa Clara County.
- Continued building exterior waterproofing, insulation, finishes, and windows.
- Continued installation of mechanical ductwork and plumbing.
- Continued Drywall installation.
- Continued progress on roofing waterproofing, shingles, PV and Fall Protection equipment.
- Curb and gutter progress at Hillview Parking lot.

#### **Upcoming Activities:**

During November 2020, Gonsalves & Stronck Construction expects to perform the following activities:

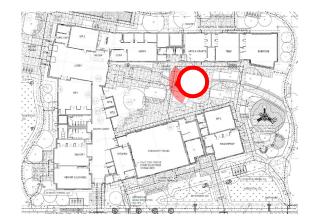

- Continued COVID-19 implementation of health and safety protocols in accordance with Santa Clara County.
- Continued electrical installation and drywall
- Continued building exterior finishes and windows.
- Install building exterior finishes: cement board, plaster, and cedar siding.
- Construction of courtyard canopies.
- Install conduits for phone and fiber connections.

A detailed construction schedule is included in Appendix B. Please note, further adjustments may be required due to COVID-19 and other unforeseen circumstances.

17	Parking Lot Construction/Paving	63	10/26/2020	12/28/2020	10/26/2020	
18	Exterior Sitework; Landscape/Lights	61	12/23/2020	2/22/2021		
19	Concrete Sidewalk & Trellis Systems	91	11/6/2020	2/5/2021		
20	Commissioning of Systems	43	1/13/2021	2/25/2021		
21	Substantial Completion	9	4/7/2021	4/16/2021		
22	Temporary Certificate of Occupancy	23	3/15/2021	4/7/2021		
23	Furniture Move-in	25	4/16/2021	5/11/2021		
24	Final Occupancy	16	5/11/2021	5/27/2021		

To date, four issues have been encountered that delayed progress:

- 1. PG&E delay in capping off the gas line in the street delayed progress by **7 working days**.
- 2. Unforeseen below-grade conditions encountered during demolition delayed progress by an additional **7 working days**.
- 3. Due to the COVID-19 Pandemic, the construction site was closed between March 30<sup>th</sup> 2020 and May 4<sup>th</sup> 2020. Ongoing impacts to construction productivity, material and equipment fabrication, deliveries, manpower availability, and external organizations such as Cal Water, PG&E, Santa Clara County Fire Department that are required for reviews and inspections, are all being impacted. Schedules are being evaluated and adjusted in accordance with the construction contract.
- 4. Following a confirmed case of COVID-19, the site was voluntarily closed for sanitization on September 11, 2020 and reopened on September 15, 2020 in accordance with the contractor's protocols. This closure resulted in a delay of **2 working days**.

Dates, durations and sequence indicated for each activity are subject to a variety of factors including weather, construction timing, and phasing of the construction and may be adjusted as the project progresses. The baseline schedule assumes 20 weather delay days. Accordingly, rain days do not pushout the overall completion date. The project has encountered 8 inclement weather delay days to date. The substantial completion date is currently anticipated to be late April, 2021, and the completion date may be further revised as impacts related to COVID-19 are experienced, evaluated, and addressed. A detailed construction schedule is included in Appendix B.

The original contractual completion for the project was 450 calendar days from Start of Construction date, with anticipated completion in November, 2020. Currently, executed change orders have extended the contract duration 19 days. A contract extension to address delays due to COVID-19 is under negotiation.
