Good Evening Mayor Fligor and Councilmembers,

As utility rates increase, please consider creating financial assistance program for seniors and low-income households. California Water has a low-income rate assistance program, which offers a fixed amount equivalent to 50% of the 5/8-inch meter service charge. A financial relief program would greatly help seniors and low-income households as some residents may have suffered financial hardship, especially during the COVID pandemic.

Thank you for your time and consideration.
