AGENDA ITEM # 2

TO: Environmental Commission
FROM: Emiko Ancheta, Staff Liaison
SUBJECT: Local Government Commission Presentation

RECOMMENDATION:

Receive presentation on California legislature from Policy Director, Roger Dickinson

BACKGROUND

The Local Government Commission is a nonprofit, nonpartisan organization in California that connects communities through local leadership. Their innovative programs and network opportunities help advance policies through participation at the local and state level, in areas such as climate change, water, energy, and healthy community design.

DISCUSSION

The LGC Policy Director, Roger Dickinson was invited to present to the Environmental Commission on current environmental legislation. This is an informative presentation to the Environmental Commission.

A. LGC Presentation

Local Government Commission

Leaders for Livable Communities

AB 965 Levine

Would direct the Department of Housing and Community Development (HCD) and the California Building Standards Commission (CBSC) to propose electric vehicle charging standards for existing non-residential buildings by July 1, 2024. It also requires HCD to consider certain factors in developing electric charging standards for existing multifamily buildings.

Moved to inactive file.

AB 897 Mullin

Would Direct the Office of Planning and Research (OPR) to facilitate the creation of regional adaptation collaboratives, to create standards for regional climate adaptation plans, and to support implementation of climate adaptation plans. It would also encourage integration with other programs such as the Federal Emergency Management Agency (FEMA) hazard mitigation program.

Died in Senate Appropriations Committee.

AB 1395 Muratsuchi

Would establish policy of the state to reach net zero greenhouse gas (GHG) emissions no later than 2045.

**Failed to pass the Senate.
Reconsideration granted.**

SB 617 Wiener

Requires local governments to implement online, automated permitting for residential solar systems and would require the CEC to provide grants to assist the implementation of such systems.

**Held in the Senate
Appropriations Committee.**

Online Solar Permitting

The budget bill, **SB 129**, appropriates \$20 million to the California Energy Commission (CEC) to make grants to local governments to implement online solar permitting.

Clean Transportation

Allocates \$3.9 billion over three years to reduce emissions from the transportation sector, which accounts for nearly 50 percent of California's annual emissions. This package provides funding for clean cars, trucks, and buses, infrastructure programs, and ongoing funding to ensure low-income Californians can afford to own a clean car.

2021-22 Zero Emission Vehicles Package

Near Zero Heavy Duty Trucks	CARB	\$45						\$45
Totals		\$1,773	\$959	\$660	\$0	\$515	\$0	\$3,907

Climate Resilience Package

The Governor and Legislature have agreed to spend \$3.7 billion over the next three years on climate resilience and budget bill, **SB 129**, appropriated \$440 million for fiscal year 2021-22 for this purpose. Additional funding allocations are contained in **SB 155** and **SB 170**.
