LOOKING FORWARD

February

Providing quality computer/printing, curbside and walkup services for the next 6 weeks while continuing to evaluate data as it becomes available

March

Plan for opening library spaces to the public with limited occupancy as the next step in expanding library services and monitoring evolving health orders

SOMETHING GOOD

- More of our staff are helping with the vaccination rollouts
- Staff helping with Disaster Service Work have been offered vaccines
- Friends of the Library are operating in a limited capacity from the portables outside, helping us clear up our backlogged discards
